

North Weald Bassett Parish Council

Environmental & Green Policy

All our activities, as a Parish Council will have some impact on our Residents together with some impact upon the environment. North Weald Bassett Parish Council recognises its responsibilities to minimise the impact these activities will have on the environment and will seek to achieve this through programmes of continual improvement. The Council's chief impacts are those relating to waste and those relating to energy.

Therefore it will be the policy of this Council, wherever possible to

- Minimise Pollution
- Meet and implement the relevant Current Legislation
- Strive to meet and implement all future legislation
- Maintain High Standards
- Integrate environmental considerations and objectives into decisions on a cost-effective basis
- Strive to ensure that local residents are aware of the Councils Environmental and Green Policy
- Ensure that the Council monitors its use on electricity and consumables, also its maintenance of its Opens Spaces

This Policy will be agreed and reviewed annually by the Parish Council.
